

Environmental Statement

S4J Manufacturing Services, Inc. is a manufacturer of fittings, from bar stock to completed, ready to ship components, for the medical device industry as well as other applications. We are committed to providing superior products and service in a manner that minimizes our potential impact on the environment.

- We comply with all applicable local, state, and federal environmental laws and regulations.
- As the majority of our product line is produced from recyclable materials, all of the subsequent leftover bar and chips are recycled.
- Our cleaning solutions are evaporated and any hazardous remains are hauled away by licensed hazardous waste companies.
- All solutions related to our plating line are evaporated when possible; and all hazardous waste is hauled away by a licensed hazardous waste company.
- We have worked with our local fire department to create appropriate emergency and spill response programs.

S4J Manufacturing strives to provide a safe and healthy workplace for our employees and for our surrounding community.
